The King of ALL Housings!

About Us

Simply the BEST Outdoor Video Products

Company History

For 19 years Dotworkz continues to produce professional grade outdoor and extreme climate camera protection solutions. Our products give integrators, dealers, distributors, IT consultants, and camera manufacturers an extensive product line engineered to withstand and thrive in all environments. Our products are American made to the highest standards and certification levels to insure quality and performance while extending the life of cameras and sensitive electronics.

Our Mission

Our mission is to produce installation ready network based video solutions for our partners worldwide. We aim to promote products that allow video technologies to be deployed in locations to benefit public safety, security, and asset protection while increasing global communications.

dotworkz systems

How We Do It!

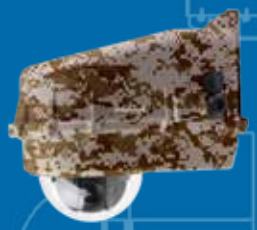
For over 19 years Dotworkz has been creating innovative outdoor camera solutions. Most of what we've learned has been under the approach of no matter what we build it has to do these 3 things: solve a problem, be pleasing to the eye, and most importantly it has to be a great product. Many of our products have similar characteristics through the model lineup. For example our cooled camera housings use a specialized reflective thermoplastic core material that reduces camera damaging heat from conducting into the housing. This innovative material is also used as the base material for protecting cameras in extreme cold weather as well since our Ring of Fire housings are often exposed to extreme -40 degrees F or colder areas of the world. We have been able to reduce cold temperature exposure to sensitive cameras by adding a regulated 60 watt heater inside the protective thermoplastic shell. Much of the problem solving "DNA" in the Dotworkz product line comes from our hands on approach to design and build from our past achievements. Prior to 1998, before the Dotworkz group began manufacturing products we were installers, integrators, video system pioneers, and also know for our camera maintenance service. Today with many patents, OEM's, industry awards, and worldwide distribution, Dotworkz innovations will stay true to our core values and push forward to produce even greater products into the future.

"Dotworkz has been the easy button for integrators."

"Your products give us the edge needed to compete on outdoor camera project bids."

"We loved the DomeCleaner tool so much we purchased 90 units for our field team."

"I drove 4 hours just to meet their team and tell them how much we love their products."



D2 camera housings are 99% compatible with all PTZ cameras made over the last 15 years. There is enough room inside to add a fiber modem, cellular uplink, and even a NVR next to camera.

S-Type brick style housings come with the strongest and steadiest stainless steel support arm, likely ever built for outdoor cameras, with plenty of room inside for big powerful cameras and long range lenses.

DomeCleanerPRO™ 25 Series carbon fiber pole and microfiber mitts cleans all camera types safely from the ground in less than 3 minutes.

BASH™ camera housings are designed to look similar to light fixtures and inside contains a built in vibration damping main support ring.

AWARD WINNING PRODUCTS!

Large scale, outdoor housings that are designed to protect broadcast quality cameras.

OPTION	CLIMATE PROTECTION LEVELS
Ring of Fire	Extreme cold as low as -60° F (-51° C) with de-icing
Heater Blower	Variable range for -25° F (-32° C) to 122° F (50° C)
Cooldome™	Extreme heat as high as 167° F (75° C) with active cooling
Tornado	Up to 140° F (60° C) & up to a 95% humidity
Solar	Low wattage from 30° F (-1° C) to 95° F (35° C)
Mild	Temperate range from 50° F (10° C) to 85° F (30° C)

BASH™
Ballistic Anti-Shock Housing

Mini Dome IP68 Camera Housing

Professional camera armor for all mobile, marine, and security video applications with IP68 protection. Designed for all mini-dome, megapixel, micro PTZ, HD, and specialty cameras.

- Original / G-PRO Models with Passive Cooling
- All-Pro Heater Blower with PoE and/or 12VDC

S-Type

Brick Style/Long Range IP68 Camera Housing

The Dotworkz S-Type professional grade outdoor video surveillance protection system is optimized for high performance static video cameras, including the latest precision HD/megapixel network based systems. The new Stainless Steel arm provides extra strength, corrosion proofing, greater stability, and durability for long range video applications, thermal, static, fixed, and other brick style cameras.

Cooldome™

Up to a 45° differential temperature between the inside and outside of the housing.

D Series

The D Series Cooldome™ IP66 offers up to 167° F (75° C) protection and up to a 45° differential temperature between the inside and outside of the housing. The D2 and D3 provides optimal camera performance and reliability with all PTZ, 360º, 180º, multi sensor cameras, 4K ultra high definition security video, and broadcast video.

Ring of Fire

A 65 watt of de-icing power maintains optimal camera temperature range inside.

D Series

The D Series IP68 Ring of Fire camera housing protects cameras from extreme temperatures down to -60° F (-51° C). The on board 65 watts of de-icing power keeps the camera operating at its desired temperature range while also heating the lens so ice literally melts off the housing. The D2 and D3 are engineered for optimal camera performance and reliability with all PTZ, 360º, 180º, multi sensor cameras, 4K ultra high definition security video, long range marine video, and other high value applications.

Accessories, Mounting, and More

From network recorders, to mounting and maintenance - we've got you covered.

Ballistic Shield Kit for the D2

The Mark IV protects against medium arms fire ranging from 9mm to 16 gauge shotgun rounds.

Product Code: KT-SHIELD

Outdoor Power Pack Pole Mount Kit

12V Outdoor Power Pack and Pole Mount Kit for COOLDOME™ enclosures.

Product Code: KT-CDR-2

Dotworkz Microphone and Enclosure

A great addition to any outdoor audio capture for all cameras.

Product Code: KT-MIC

DomeCleaner - Dome Lens Cleaning Package Pro Kit

The best selling Dome Lens Cleaning Package on the market.

Product Code: DW-PKG1

Ballistic Lens for BASH™

The Ballistics Lens for the BASH security camera enclosure is level 1 rated bullet proof.

Product Code: AC-BA-LENS

Nylon Lens (2017 Model)

Optically clear for 4K + resolution. Stronger for IK10 + vandal protection. Works with all D Series Enclosures.

Product Code: KT-CLNS-4K

Stainless Steel Arm for all S-Type Camera Housings

Optional power supply (PS-OD240-12) can be mounted inside the arm.

Product Code: BR-STSS

Solar Camera Enclosure & Power Station

All kits provide remote stand-alone solar power and are turn-key ready.

Product Code: Inquire for details

Humidity Removal Pack

This pack is designed to remove up to three cubic feet of moisture and is rechargeable.

Product Code: KT-HRC1

Dotworkz Nano Mount for Ubiquiti antennas

For all Ubiquiti PowerBeam & NanoStation antennas.

Product Code: KT-UBNT-NANO

Xero 2.0 a Network Video Recorder (NVR)

The Xero 2.0 is a Network Video Recorder by Dotworkz is known for its performance and small form factor.

Product Code: NVR-XERO
