

## Off-Grid, Low-Wattage, and Dotworkz Tough

The D2-HB-Solar is the ideal enclosure for off-grid and remote locations, providing the Dotworkz standard of durability in a low-wattage solution.

The thermostatically controlled Heater Ring & Blower system delivers IP66 outdoor-rated protection for all compatible IP and analog PTZ cameras.

The heavy-duty Polycarbonate Thermal Plastic case is non-metallic, non-corrosive and vandal tough.

The D2-HB-Solar is compatible with virtually all IP and analog PTZ camera on the market.

D2-HB-SOLAR: Power Saver Heater Blower for Solar Applications

## Description:

The D2-HB-Solar protects cameras by using a low wattage heater "ring" that encircles the camera and is affixed directly to the dome lens. This applies 4 watts of direct heating, and allows the Solar version to maintain lens clarity by eliminating fogging.

This rugged air/water tight enclosure provides the ultimate protection of camera and other sensitive components. The Solar version heater ring with blower is ideal for temperatures ranging from 30F (-1°C) to 95F (35°C), and is engineered to protect internal components during occasional extreme weather conditions.

## Specs: \* Standard V

\* Standard Version: 12 VDC Line in, line out model Operating Temperature (Absolute/Rec.): -25° to 140° F (-32° C to 60° C) 30° to 95° F (-1° C to 35° C) Power Consumption: Less than 7 watts peak, + camera load @ 12VDC input/Output model Input Power Source / Output for Camera Power: 12VDC / 12VDC Internal Power Available for Camera: 3 amps @ 12 VDC on typical model Shipping: 17" x 13" x 16" - 11 lbs (5.0 Kg) "Optional Step up power supply available for 12 VDC input supply

side (PS-SU24), 24 VDC to power camera models, add 35% to camera power load consumption. \*24 V input models Available by Special order)

## Features:

- · Solar ready, low wattage solution
- Enables IP and analog cameras to operate in average weather conditions and temperatures ranging from 30F (-1°C) to 95F (35°C)
- Heater "ring" goes around camera and is affixed directly to the dome for direct defogging and heating.
- Internal bracket included for perfect fit for PTZ, megapixel or mini domes cameras. Designed to work with all brands of IP and analog PTZ systems.
- Virtually indestructible Polycarbonate Thermal Plastic alloy. IP66 rated against dust, water and salt water air. IP67 water-proof connection ports
- Switchable upper and lower camera mounting locations for maximum versatility and internal storage space
- Internal mounting space for: routers, cell networks, hard drives, UPS, WiMAX, mesh hardware, etc.
