

**Versatile, Virtually Indestructible  
and Ready for the Extreme**

Not just a camera enclosure but a engineered outdoor housing system that is designed to expand all indoor camera models into complete rugged outdoor system solutions.

Virtually Indestructible: We produce the worlds toughest enclosures, will not corrode, rust, leak and has proven to withstand a whole world of abuse.

No matter the climate we take outdoor temperature protection very serious: Extreme Hot climates, Cold climates, Marine and everywhere in between.

innovative
